

# Basic Electrical Repair

This course provides a basic understanding of electrical terminology, components of the system, the flow of electrical current, wiring concepts and safety. The focus of the class is to learn what will be immediately useful in the field by practicing troubleshooting and wiring the most common switches, outlets, and thermostats correctly. Each student will learn how to use a multi meter and diagnose common electrical problems in rental units.

**Instructor: Zach Howell**

**Time:** 9am-12pm  
**Date:** Nov. 11, 2009  
**Location:** MMHA  
921 SW Washington #772  
Portland, OR 97205
